## SUMMARY

---

DevOps Engineer with 2+ years of hands-on experience in automating cloud infrastructure, building CI/CD pipelines, and managing containerized applications. Proven track record in reducing deployment times and improving system reliability through Infrastructure as Code (Terraform) and robust monitoring (Prometheus/Grafana).

## WORK EXPERIENCE

---

### DevOps Engineer

Sep 2021 – Nov 2022

Quantiphi — Remote

- Maintain and improve CI/CD pipelines using GitHub Actions for 5+ microservices
- Containerized legacy Node.js applications using Docker, reducing environment inconsistencies
- Assisted in writing Terraform scripts to provision AWS EC2, S3, and RDS resources
- Set up basic Prometheus + Grafana dashboards to monitor application health on EC2

### Junior DevOps / Cloud Intern

Mar 2021 – Aug 2021

Quantiphi — Mumbai, India

- Supported deployment of Dockerized applications to AWS ECS using shell scripts
- Wrote Ansible playbooks to automate server configuration across dev environments
- Learned and applied basic Kubernetes concepts — deployments, services, ConfigMaps
- Collaborated with dev team to debug pipeline failures and reduce build times by 20%

## SKILLS
